#### TO OUR PATRONS

A school, community, or state is like a person in many ways. Some people have a proud heritage and act accordingly. Some people are progressive and adopt new concepts readily. Some people live in the present and prepare themselves for the future, while others live in the past and do not keep up with the present.

Our state and community is rapidly becoming industrialized and Buckeye High School must change its concepts of education if our boys and girls are to reap the benefits offered by industry.

Let us keep in step with the rapidly changing conditions so that our students may be ready for positions of leadership.
